VERSION 1.0

1. PROJECT OVERVIEW

Project Name

Chalo Omkareshwar

Project Type

Tourism, Transportation, Local Mobility and Travel Assistance Platform

Platform

Responsive Website (Mobile First)

Future Expansion:

- Android Application
- iOS Application

Project Vision

Chalo Omkareshwar aims to become the primary digital platform for transportation, tourism, accommodation discovery, temple information, and local travel assistance in Omkareshwar and surrounding regions.

The platform will connect tourists, pilgrims, local residents, drivers, hotels, dharamshalas, restaurants, and businesses through a single unified ecosystem.

The long-term objective is to create a complete travel infrastructure for Omkareshwar similar to how Uber serves transportation and how MakeMyTrip serves travel, but focused specifically on Omkareshwar and nearby regions.

2. PROBLEM STATEMENT

Currently, visitors arriving in Omkareshwar face several difficulties:

Transportation Issues

- No dedicated local ride booking platform
- Difficulty finding trusted drivers
- Inconsistent pricing
- Lack of availability during peak hours
- No centralized booking platform

Accommodation Issues

- Difficulty locating affordable hotels
- Lack of verified Dharamshala information
- No centralized listing platform

Tourism Information Issues

- Temple timings scattered across different sources
- Lack of authentic information
- Difficulty finding nearby attractions

Local Business Visibility Issues

- Local restaurants and dhabas have limited online visibility
 - Small businesses struggle to attract tourists
-

3. BUSINESS OBJECTIVES

The platform should:

Objective 1

Simplify transportation booking.

Objective 2

Increase tourist convenience.

Objective 3

Support local drivers.

Objective 4

Promote local hotels and dharamshalas.

Objective 5

Improve visibility of restaurants and local businesses.
